

PCOST PUBLIC COMMUNICATION
OF SCIENCE & TECHNOLOGY
PROJECT

"Communicating Health and Safety Risks on Emerging Technologies in the 21st Century"

Thursday and Friday, August 28 and 29, 2008

North Carolina State University – McKimmon Center

This Nanotechnology Interdisciplinary Research Team (NIRT) workshop is supported by the National Science Foundation under Grant No. 0809470. The four year grant examines how publics perceive and respond to toxicology information on the health and safety of emergent technologies. The grant is led by Dr. David Berube, NCSU Department of Communication.

The keynote speaker is **Lennart Sjöberg**; a scholar in risk communication from the Stockholm School of Economics. The hosts are North Carolina State University's College of Humanity and Social Sciences (CHASS), and the Public Communication of Science and Technology (PCOST) Project.

Students will not be charged to attend. The workshop will involve extensive video conferencing and the entire meeting will be broadcast over the internet at <http://communication.chass.ncsu.edu/nirt/Home.html>.
